

Armada Anaesthesia is an established group of specialist anaesthetists with a commitment to professionalism, reliability and exceptional patient care.

Our Purpose

We work closely with surgeons to provide safe, expert care to every patient and provide a professional, supportive home for anaesthetists.

What We Do

We are a clinician-led group of more than 45 independent specialist anaesthetists, backed by a dedicated administrative team. We provide access to high-quality lists along with the operational support and guidance you need, so you can spend your time where it matters most – caring for patients and building professional relationships in theatre.

The Armada Way

When you join Armada Anaesthesia, you operate independently, but you're not alone. You set your own fees, choose your own lists, and manage your own clinical relationships.

- Immediate access to quality work
- Fixed fees calculated at 5% of monthly billings
- No buy-in or monthly subscription fees
- No long-term lock-in
- Hands-on and experienced mentorship
- Equitable access to operating lists regardless of tenure

Support At Every Stage of Your Career

We work with and support anaesthetists from every background, and at every career stage.

Anaesthetists in training

- Guidance and mentorship for ANZCA exam preparation.
- Early exposure to and understanding of private practice dynamics.
- Opportunities to build long-term relationships with surgeons that extend beyond training.
- *Armada Part 3*: Insight into career pathways and transition planning from training to consultancy.

Early-career anaesthetists

- Practical support navigating the world of private practice.
- Billing masterclass, compliance, and private practice workshops.
- Structured opportunities for networking and establishing relationships with surgeons.
- Mentorship from experienced practitioners to build confidence and independence.

Established anaesthetists

- Comprehensive administrative support, including list management and billing.
- Flexibility to design a work schedule that suits lifestyle and professional goals.
- Access to trusted professionals for financial planning and wealth management.
- A strong, collegial environment that support ongoing professional growth and collaboration.

Overseas-trained anaesthetists (SIMGs) and Moratorium support

- Dedicated administrative support to assist with accreditation and regulatory requirements.
- Access to health services and surgical lists in District of Workforce Shortage (DWS) areas.
- A welcoming, inclusive, and well-connected practice community.
- Guidance and mentorship to support integration into Australian private practice.

Our Services

Nurse Practitioner Service

Our Nurse Practitioner Service enhances preoperative care and strengthens communication between patients and our anaesthetic team.

Patients can speak with one of our experienced Nurse Practitioners both before and after their procedure. This allows them to discuss their health, ask questions, and feel informed and supported throughout their surgical journey and recovery.

This continuity of care provides reassurance and peace of mind, helping patients feel confident and well-prepared at every stage.

Pharmacist Support and Education

The Armadale Anaesthesia team has direct access to pharmacy support for expert medication management and patient education.

This support helps patients understand their medications and ensures they feel informed and prepared ahead of surgery. Our range of educational resources, including videos on the Armadale Anaesthesia website, also offers clear, practical guidance on perioperative medication management.

Surgical Outreach Program

Our Surgical Outreach Program is focused on building strong, collaborative relationships with the surgeons, practice managers, and clinical teams who refer patients to our care.

We take the time to understand each team's needs and challenges and work together to enhance patient care pathways.

This hands-on, relationship-driven approach ensures we remain closely connected to the teams we support and the patients we care for.

Where We Work

Our team of anaesthetists work in private hospitals and health service networks across Melbourne and the Mornington Peninsula to provide reliable, specialist anaesthetic care.

How Get In Touch

To find out more about the support we provide to anaesthetists or join our team, please contact us:
